2019**

The Importance of Checking Invoices

January 1st rang in a new year, and for many firms it also marked the renewal date of their employee benefits packages. One very important function you can do as an employer in regards to your benefits plans is to review your monthly carrier invoice for accuracy. What a better time than the beginning of a new year to make sure all of your invoices are in order. We recommend this to all of our clients, renewing now or not. Invoices should be audited on a regular basis to ensure that new hires are being included and anyone who should no longer be on the plan, has been terminated.

Please take some time to review your invoices and start the new year off on the right foot. If you find any discrepancies, please let us know. We are happy to assist.

Here's to a prosperous and joyous 2019! We appreciate your continued business.
